Application Packet Review and Interview

The student will submit the completed application with all application documents for the application to be considered a *complete application packet*. Upon receipt of the non-refundable application processing fee by Healing Arts Institute of Clinical Sexology, the application packet will go for review. The Admissions Committee considers all applicants for admission based on their academic record, personal and professional accomplishments, motivation, talents, recommendations, personal statement, and test results, as applicable. All required application documents must be submitted to the Office of Admissions before application packet will go to the Committee for review. Based on the application packet, the Committee will determine to call the prospective student for an interview. All documents become the sole property of HAI and cannot be forwarded to another institution or returned to the applicant.

Once the application packet is submitted, all application packets will be reviewed by the Committee. All programs require a face to face interview with the Committee. The applicant will respond to interview questions regarding past training, clinical experience, how the degree will be used, and any other information relevant to the applicant's ability to successfully complete the program. If any Committee member deems an applicant to not meet admission requirements or goodness of fit into the program, they will submit their rationale in writing to be added to the prospective student's record. The Committee will make a recommendation of acceptance or denial. The applicant will be notified in writing not to exceed thirty (30) days of the application packet completion, as to their acceptance or denial. If the Committee decides that an applicant does not meet requirements, and has a correctable reason, the applicant will be given the opportunity to correct their application and resubmit with an answer of decision to not exceed 30 days from the date of application correction. No waiver or credit will be applied for previous submitted applications to be used on current applications.

Upon submission of initial application packet, HAI will further assess a student's ability to successfully complete the course of study by conducting an interview. Interviews are required to be conducted face-to-face, in person at HAI's campus in Tamarac, Florida. If the applicant is accepted into Healing Arts Institute of Clinical Sexology, they will need to complete the Enrollment Agreement. This would need to be returned to the Office of Admissions before student can enroll/register in classes.

Students are required to register for classes for the start of the following term after acceptance into the program. Failure to register for classes results in one (1) automatic deferral of classes to the next term. If students do not register for classes after the first automatic deferral, students will not be eligible to register for classes until they meet with the Admissions staff to devise a plan of action. If student does not enroll in courses after acceptance, they have six (6) months to register for classes. Failure to register for classes before the six (6) month time requirement, nulls student's acceptance into the program. As a result of having a nulled acceptance, and applicant is still interested in attending HAI, they would need to submit another application, non-refundable application fee, along with a re-admit fee, and a review of application documents to be considered as a readmit student into the program. If a denial of acceptance is determined for the applicant, they may reapply after six (6) months. Reapplying will result in another non-refundable application fee, and a re-admit fee. Other documentation of the application will be evaluated, and it will be determined what, if anything, needs to be resubmitted.

International Students

International students are required to provide official transcript(s) evaluations from one of the agencies found at National Association of Credential Evaluation Services (NACES) (<https://www.naces.org/members>). Dissertation and Doctoral Project

This program is structured in two components: Clinical Sexology course work and Dissertation or Doctoral Project. Both the dissertation and the doctoral project requires a significant literature review. The distinction between the two includes but is not limited to:

1. Dissertation will postulate a hypothesis, which the methodology and statistical analysis will either support or not.
2. Doctoral project will involve the design and implementation of an intervention for a sexual issue or concern; the need for which was suggested by the literature review.

Students will have the benefit of committee members who are experts in the particular field of interest. They will choose one (1) doctorate level committee member from the Healing Arts Institute of Clinical Sexology's faculty and choose an additional two (2) doctorate level committee members from their field of interest, which they may be from Healing Arts Institute of Clinical Sexology or from a regionally accredited University in a full-time faculty position. The research may build on the specialty concentration the student studied. The dissertation or doctoral project will have a sexology/sex therapy focus and will make an original contribution to the field of Sexology.

Institutional Review Board Requirements

It is required that the students have completed courses in Research Methodology or Statistics (or an equivalent, verified during time of admissions by the Office of Admissions). Graduate level courses are preferred but not required.

During the first week of class, for the first Dissertation or Doctoral Project course, students are required to complete CITI Training: Protection of Human Subjects Training/Education. This training is available at HAI student resources page (www.healingartssfl.org).

After successful proposal of dissertation or doctoral project, students are required to register their dissertation or doctoral project study with Healing Arts Institute of Clinical Sexology's Institutional Review Board (IRB). Students are not eligible to start their research study without IRB approval. Failure to not get approval from the IRB or any violation of this process is considered a breach of ethics and grounds for dismissal from the program.

As part of the dissertation/doctoral project portion of the program, Healing Arts Institute of Clinical Sexology offers ancillary classes in Research Methodology and in Statistics. For those students who want or require additional guidance in completing a dissertation/doctoral project, consultants with expertise in Research Methodology and Statistics will be offering tutorials at an additional cost throughout the year. Those consultants will also be available to the students independently for additional tutoring or editing. The Healing Arts Institute of Clinical Sexology faculty will also be available to the students for consultation and guidance at no charge.

Students will be provided with ideas for their dissertation/doctoral project throughout their program and faculty will help them fine-tune their ideas and give guidance with methodology. This is in addition to the input of their committee members.

Practicum, as defined by the Merriam-Webster dictionary, is a course of study for teachers, doctors, nurses, etc., that involves working in the area of study and using the knowledge and skills that have been learned in a school.

Students will present cases from their clinical practices and review case studies provided by the supervising instructor. They will apply the major models of sex therapy for clinical social work, marriage and family therapy, mental health counseling, or psychology. Students will gain and apply skills to develop a personal model of clinical work and practice preferred styles of therapy. They will discuss the co-evolving dynamics of therapist-client relationships, explore distinctive issues that arise in sex therapy and counseling, and address the contextual variables in practice such as culture, gender, ethnicity, power and economics. Students will become familiar with and demonstrate the ethical, legal, and regulatory issues of clinical sexology practice. Clients will be engaged through the student's private or agency practice, internet marketing, support groups, and word of mouth. All clients will provide informed consent to being treated by a student under supervision. As a prerequisite for practicum, students will be licensed or license-eligible to provide counseling to clients independently.

The supervision will be in the form of case consultation sessions where students will present written case logs, excluding identifying information, that will be discussed with the supervisor and other participating students. The supervision consists of case discussion and review, reading appropriate materials, and the implementation of treatment interventions by the supervisor. Students will see clients in their own professional offices. Supervision will take place via HIPAA Compliant online platform.

It will be the student's responsibility to maintain a case log during supervision. The log will contain the date, type of case, client's age, gender, marital/relationship status, DSM-5 codes and the modality of therapy used. The supervisor will keep a similar log. Template of case log can be found on the HAI student resources page (www.healingartssfl.org).

Students may take up to a year to attain a passing grade. If at any time during the remedial process the instructor and the Director agree that the student is not capable of progressing, the student will be brought in for a meeting to discuss the advisability of continuing the program. At the end of a year, if the student has not attained a passing grade, the student will be dismissed from the program and not allowed to reapply for one year. Re-acceptance will be conditional upon interview with the Director and relevant instructor. Acceptance is not guaranteed.

Grievance and Appeal Procedures

Grievances generally fall into one of three categories: Academic, Administrative, or Sexual Harassment. Below are the procedures for each. Every student has the right to procedural due process during the grievance and appeal procedure.

Grievances which are substantiated by allegations of capriciousness, arbitrariness, discriminatory treatment and/or are contrary to the class syllabus, may be submitted to the Director by the student, in writing, within ten (10) working days from the date of the action or omission involved and after the informal proceedings have been exhausted.

Academic Grievance and Appeal Procedure

Students who do not maintain their grades as per the Satisfactory Academic Progress Policy and who believe they were graded unfairly may submit an Academic Grievance to the Director and the Board.

Academic grievances related to an Unsatisfactory Grade of a written assignment shall be attempted to be resolved by the student requesting a meeting directly with the course instructor. If the Grievance is not resolved, then the student will request a meeting with the Student Advisor. If the Student Advisor is the instructor, then a meeting will be scheduled with the Director. This formal meeting will be scheduled within ten (10) days, when the Student Advisor or Director will have had time to review all relevant information pertaining to the grievance, as well as to review all applicable Florida Rules and Statutes.

If the complaint is not resolved nor an agreement could be reached, an arbiter will be chosen from the Healing Arts Institute of Clinical Sexology Board. The arbiter will review the student's work or issue and submit their decision within 15 working days from the date of the appointment.

If the student wishes to appeal the decision of the arbiter, the student may contact the Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400, toll-free telephone number (888) 224-6684.

As per the Satisfactory Academic Progress Policy, students must earn a minimum of a B on the comprehensive exam to successfully complete the program. If the grievance pertains to the exam, the student may submit a formal grievance to the Board members who sat on the Healing Arts Institute of Clinical Sexology Examination Committee. They will review their evaluations of the student's performance and respond within fifteen (15) days. If the grade is not changed but there was disagreement between two members of the Healing Arts Institute of Clinical Sexology examination committee as to the student obtaining a passing grade, the student may be re-examined by another Board member within thirty (30) days. That grade will be final.

Summary Suspensions

A summary suspension is defined as an immediate suspension decision from Healing Arts Institute of Clinical Sexology. The Director may suspend any student for any major violation as defined in this document, when the conduct involved constitutes a threat to the safety and/or welfare of the program, instructors, guests or other students; is detrimental to the image or best interest of the program; or for any other reason stated in any institutional documents. The student will be notified either personally or by certified mail of the summary suspension and the basis for said suspension. Summary suspensions are interlocutory measures which are not appealable.

In cases of summary suspensions, the Director will appoint a Quality Assurance Committee (QAC), made up of two additional Board members, within ten (10) working days from the date of notification to the student of the summary suspension, to determine within fifteen (15) working days of the appointment of the QAC, whether the suspension will be maintained or rescinded and for the adjudication of the charges in a formal procedure. Both issues will be consolidated into one formal hearing. All charges and issues will be included in the notification as required for a formal hearing.

The Director will issue a resolution within fifteen (15) working days of the receipt of the report.

Students whose conduct is found to be unprofessional will be expelled from Healing Arts Institute of Clinical Sexology with no further option to appeal or return. Furthermore, as required by F.S. 490 and 491, a report regarding the unprofessional conduct will be made to the student's licensing board.

Administrative Grievances Against the Director or Instructor

Each student who initiates a grievance against Healing Arts Institute of Clinical Sexology or against whom Healing Arts Institute of Clinical Sexology must act has the right to procedural due process.

Grievances are addressed in face-to-face meetings when the complainant chooses to verbalize a problem. If a grievance is presented in writing, the Director will reply in writing and every attempt is made to rectify the issue. If a grievance is unable to be rectified in this manner, another Board member will mediate the issue.

A student may present a grievance against the Director or another instructor for conduct or actions not covered under the Academic Grievances section of this Manual, in the same procedure as an Academic Grievance.

The Director will investigate the grievance. If the grievance is against the Director, another Board member will be appointed to investigate.

If the Director determines that the grievance is groundless, the grievance will be dismissed, and the student will be informed thereof in writing within twenty (20) working days of date of receipt of grievance.

If the Director determines that there are grounds for sexual harassment or discrimination, they will notify the parties that the grievance will be investigated by the Board. The Director will send a written notification to the student and the alleged offender of the decision to pursue the grievance as a sexual harassment claim and will schedule a formal hearing.

If the Director determines that the alleged offender's conduct was contrary to their position as instructor, they will present a fact-finding report to the Board for the proper action. This report will not include recommendations. The Board will meet to determine an action, which will include termination of the instructor if the Board agrees with the Director.

Appeal Procedure

If the student wishes to appeal the Board's determination, then they may follow the procedure for a Formal Hearing.

Formal Hearing

A formal hearing is any meeting between Board members or between Board members and a student and/or instructor, for the purpose of assessing any complaints or grievances and deciding as to recommendations for resolution of such complaints or grievances. All formal hearings will be documented with minutes noting the time, place, and attendance of the meeting, as well as, the content of the meeting.

Students who feel a grievance is unresolved may refer their grievance to Executive Director, Commission for Independent Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400, 850-245-3200 or toll free at 888-224-6684.
